PROFESSIONAL SUMMARY

Full Stack Developer with 1+ year of experience building web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Skilled in developing RESTful APIs, JWT-based multi-role authentication systems, and responsive React.js interfaces. Experienced in Agile development, API testing with Postman, and delivering production-ready features through collaborative code reviews.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, Redux, React Router DOM, Tailwind CSS, Bootstrap, JSX/TSX, Responsive Design

Backend: Node.js, Express.js, RESTful API Design, JWT Authentication

Databases: MongoDB, Mongoose ODM

AI / APIs: Google GenAI API Integration, Third-Party API Integration

Tools: Git, GitHub, Postman, Thunder Client, VS Code

PROFESSIONAL EXPERIENCE

Software Developer

Apr 2026 – Present

Vitric Business Solutions Pvt. Ltd. | Nagpur, India

- Develop frontend and backend modules for a production application using React.js, Node.js, and Express.js, contributing to feature releases across the full stack.
- Participate in Agile sprint cycles, daily stand-ups, and peer code reviews using Git and GitHub to maintain code quality and consistency.
- Test and debug REST APIs with Postman, ensuring endpoint reliability and data integrity across releases.

Full Stack Developer Intern

Sep 2025 – Mar 2026

Manisha Systems | India

- Built and maintained full-stack web applications using React.js, Node.js, and Express.js within an Agile team environment.
- Contributed to sprint planning, daily stand-ups, and version control workflows using Git/GitHub.
- Performed API testing and debugging with Postman, improving backend stability and application performance.

Proprietor

Mar 2019 – May 2023

Maa Sharda Traders & Construction | India

- Directed end-to-end operations of a construction and trading business, managing multiple concurrent projects and government tender bids.
- Oversaw site supervision, quality checks, billing cycles, vendor negotiations, and workforce scheduling.

PROJECTS

MES – Military Engineering Service

Tech Stack: React.js, Node.js, Express.js, MongoDB

- Designed a secure multi-role authentication system supporting 5 user roles (Admin, Officer, Contractor, Worker, Resident) with dynamic routing and assignment pipelines.
- Built real-time dashboard widgets using Recharts to track contractor performance and ticket frequency, integrated with an SLA monitor that auto-escalates overdue tickets.

Legal App – AI-Powered Legal Assistance

Tech Stack: React.js, Node.js, Express.js, MongoDB, Google GenAI, JWT

- Engineered an AI-powered platform that matches users with verified lawyers by location.
- Integrated the Google GenAI API for natural-language legal Q&A and secured all routes with JWT authentication.

EDUCATION

Master of Business Administration (MBA) – Human Resources

Aug 2023 – Jul 2025

Govt. PG College, Satna

Bachelor of Engineering (BE) – Information Technology

Aug 2013 – Dec 2018

Lakshmi Narain College of Technology (LNCT), Bhopal

Diploma in Engineering – Information Technology

Aug 2010 – Jul 2013

Govt. Kala-Niketan Polytechnic College, Jabalpur

Languages: English, Hindi
